

Hypothetical Example for a Manufacturing Plant

IntelliSCREEN™ Advantages Versus Other Options

All Inclusive: Handles all Covid-19 mandates including health check survey, fever checks, visual verification, traceability data, real-time notifications, auto emailed discrepancy reports, and full compliance reporting

Turnkey: We hand deliver units to your facility, we set them up, perform field calibrations, train your administrators how to manage, train your occupants how to use, and install Track-n-Trace software on a provided local environment to ensure privacy

Customizable: Units are built with extruded aluminum, PC, and PLC for maximum flexibility to handle the unique needs of each location
